HOWDEN JOINERY LIMITED
DIRECTORS' REPORT

The directors have pleasure in submitting their report and the audited financial statements of the Company for the 52 weeks ended 26 December 2009 *(2008 52 weeks ended 27 December 2008)*

BUSINESS REVIEW AND PRINCIPAL ACTIVITIES

Howden Joinery Limited ("Howden Joinery" or "the Company") is a wholly owned subsidiary of Galiform Plc, and operates as part of Galiform Plc's Trade and Supply divisions The Supply Division designs, and either sources or manufactures, kitchens and joinery products, which the Trade Division then sells to the building trade, predominantly small local builders, via a nationwide network of depots

As shown in the Company's profit and loss account on page 8, the Company's sales are £760m for the period, while profit after tax has increased from £49m to £61m The profit for the financial period as shown in the profit and loss account amounted to £61m The directors do not recommend a dividend to be paid (2008 £nil)

The balance sheet on page 9 of the financial statements shows that the Company's financial position at the end of the year Details of amounts owed to and from the parent and other group companies are shown in notes 10 and 11

The financial performance of the Company in 2009 demonstrates the strength and resilience of the Howdens model One of the main reasons for the resilience of the Howdens model is that the business serves many sectors of the market via one channel the small builder From the outset, the Company has designed the business around his needs

The small builder is an entrepreneur who migrates from one sector of the market to another by recommendation Many of his customers are private landlords or owner-occupiers Some may be housing associations or local authorities Occasionally, he may work for a big builder or developer The pattern of his work will vary from season to season and from year to year

Howdens benefits directly from this structure It is the builder who regulates the mix of end-users The builder's relationship with the Company is not with a central organization but with his local depot When the depot earns his trust and loyalty, the builder allows the depot immediate access, at no extra cost, to all sectors of the market Howden Joinery already has a significant share of the retail market in the UK without any of the costs, such as showrooms, fitters or home delivery, that are normally associated with retail

Depots are not retail showrooms and the rent paid for them is low, the fit-out costs are modest, and a new depot can be up and running very quickly A typical depot occupies around 10,000 square feet, only 10% of which is selling and office space The rest is low-cost storage, because an in-stock model is operated

The depot expansion programme is therefore adaptable It can be switched on and off in anticipation of, and in reaction to, market conditions That is why the Company was able to resume the depot opening programme so quickly last year following strong autumn trading 8 new depots were opened in December 2009, bringing the total number of depots trading to 462

In depots, all bonuses, managers and staff, are directly linked to local margin and profit So everyone is personally engaged in the success and development of the business

Depots are not the only area in which the Company has been able to demonstrate adaptability With security of supply in mind, as well as cost, the decision in 2008 was taken to bring some sourcing back to the UK

During 2009, the Company's factories in the UK produced 3 5 million kitchen cabinets, 800,000 kitchen worktops and breakfast bars, and over 2 million kitchen frontals, which was over 2 5 times more than in 2008

FINANCE RISKS AND OTHER PRINCIPAL RISKS AND UNCERTAINTIES

The future success of the Howden Joinery business depends on maintaining the culture and business model as the Company grows The Company needs to preserve the decentralised business model which allows depot managers to flex their requirements to suit the needs of their customers, and increases the entrepreneurship which is part of the Howden Joinery culture

The Company is financed by an interest-free loan from its ultimate parent company The Company has no third party debt, although as described below certain of its assets act as security on the Group's ABL facility It therefore has no interest rate exposure As such, the Company's financial risk management objectives and policies are those of the Galiform Plc Group, which are contained in the Group's Annual Report, which does not form part of this Report

The Company's principal financial assets are bank balances, cash, and debtors The Company's credit risk is mainly confined to the risk of customers defaulting on sales invoices raised A policy of only dealing with creditworthy counterparties as a way of mitigating the risk of financial loss from defaults has been adopted Howden Joinery does not have any significant credit risk exposure to any single counterparty, since debtors consist of a large number of customers, with ongoing credit evaluation performed on the financial conditions of accounts receivable

The Company has no other significant risks and uncertainties, other than those risks that it shares with the Galiform Plc Group The Group's risks are discussed in the Group's Annual Report, which does not form part of this Report

GOING CONCERN

The current economic conditions create uncertainty particularly over (a) the level of demand for the Company's products and (b) the exchange rate between sterling and both the Euro and the US Dollar which would impact the cost of the Company's operations

The Company's forecasts and projections have been stress-tested for reasonably possible adverse variations in trading performance The results of this testing show that the Company should be able to operate for the foreseeable future

The Company's trade receivables and inventory balances act as security on the Group's asset-backed bank facility The security on these assets could be called upon if the Group were to breach its borrowing facility or covenants In addition the pension trustees have a charge on the shares of the Company and have a separate covenant test on the EBITDA for Howden Joinery This charge could be called upon if there were to be a breach of this covenant

The Group's latest forecasts and projections have been stress-tested for reasonably possible adverse variations in trading performance and show the Group should be able to operate within the terms of its current borrowing facility and covenants for the foreseeable future The EBITDA covenant for Howden Joinery has the lowest level of headroom based on those projections It is calculated each four week period on a three and six period rolling basis, such that short term variability in trading performance would increase the risk of non-compliance Nevertheless, whilst there can be no absolute certainty, after due consideration of the impact of a reasonably possible further decline on the recent trading performance experienced, it is not considered that this covenant will be breached in the foreseeable future On this basis the directors of the Company believe that the security on the facility could not be called upon

After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future Accordingly, they continue to adopt the going concern basis in preparing the accounts

SOCIAL AND EMPLOYEE ISSUES

Howden Joinery Limited directly employs over 5,400 people and sells more kitchens than any other company in the UK Each year, customers, principally small builders, are supplied with around 3 5 million kitchen cabinets, 2 million doors and 400,000 complete kitchens

This market leading position means the Company has responsibilities that it must reconcile with the pursuit of its commercial interests

Committed to responsible manufacturing in the UK

There are two manufacturing facilities in the UK one in Runcorn and one in Howden Manufacturing at scale in the UK benefits both the domestic workforce and the communities in which they live and work

Committed to managing impact on the environment

Wood

Manufactured product

As a supplier of kitchen and joinery products, wood obviously plays a central role in what the Company does It is therefore policy to always try and source wood in a way that is good for the environment as well as good for the business The preferred option is to buy wood which is certified by either the UK FSC or by the European Programme for the Endorsement of Forest Certification (PEFC) These respected, independent schemes enable the Company to source wood and paper products from suppliers that use sustainable methods to manage their forests

The Company also aims to source all cardboard packaging from either recycled or certified sources All the Company's UK manufactured kitchen ranges are certified by the UK Forest Stewardship Council (UK FSC) Over 96% of all UK manufactured product is now FSC compliant (2008 85%)

Bought-in product

As well as manufacturing much of the product in the UK, the Company continues to source joinery products and kitchen frontals from a range of suppliers in the UK, Europe and elsewhere in the world

Ethical and environmental sourcing is an important factor in the Company's international supply chain, and the Company expects all suppliers to exercise high standards in this area Suppliers of wood based kitchen and joinery products should either already have or be working toward FSC/PEFC certification wherever possible Regular audits and continuous improvement programmes have become an integral part of supplier selection and development and the Company continues to audit a sample of suppliers on an annual basis to verify their compliance with the Company's requirements

Energy

The two key areas where efforts have been specifically concentrated to measure and reduce energy consumption are at the manufacturing sites and across the Company's fleet of trucks Howden Joinery is also working to increase the number of energy efficient products which are supplied to customers

Manufacturing

The Company remains certified under the Carbon Trust's prestigious Energy Efficiency Accreditation scheme, an accreditation which has been held continuously for over ten years

In 2009, ISO14001 accreditation was extended within the Company's manufacturing and logistics operations along with the warehousing facilities at Howden

Truck fleet

The Company operates a fleet of 104 trucks (2008 106), and has decreased the size of its fleet over the last 2 years This reduction in the number of trucks has been achieved through a traffic sharing arrangement in conjunction with the Company's haulier partners This arrangement improves transport usage by removing inefficiencies and maximising use of backhaul capacity The Company's entire truck fleet is now Euro5 compliant

Car fleet
In 2009 to reduce carbon emissions further, more eco-friendly cars were allocated to sales representatives and depot managers (who account for approximately 80% of car fleet usage) This change will mean that over the next 4 years all the fleet will be replaced by more environmentally friendly models

Products
In line with EU regulations, all kitchen appliances are rated and labelled in respect of energy efficiency

Waste
In 2009, manufacturing operations reduced the amount of waste produced, and recycled over 95% of that waste (2008 90%)A returnable 'eco-pallet' initiative was also introduced, with the initiative of recovering and repairing pallets, which would otherwise have been scrapped, also continuing

Committed to supporting our workforce to acquire and practise core skills

Employee responsibilities

The Company takes its responsibilities as an employer very seriously and aims to provide a positive work environment for all staff, whether working in factories, warehouses, depots or offices The Company's culture emphasises the importance of individual accountability, which means the personal responsibility towards everyone engaged in Company business This culture is reinforced by commitment to certain core principles

- Recognising by reward the hard work of all employees
- Investing in training and development across the business
- Ensuring that recruitment, career success and progression are solely determined by an employee's abilities and achievements

Details of the number of employees and related costs can be found in note 3 to the financial statements

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned In the event of members of staff becoming disabled every effort is made to ensure that their employment with the company continues and that appropriate training is arranged It is the policy of the Company that the training, career development, and promotion of disabled persons should, as far as possible, be identical with that of other employees

Howden Joinery participates in the Group's policies and practices to keep employees informed on matters relevant to them as employees through regular meetings and employee representatives are consulted regularly on a wide range of matters affecting their interests

Health & Safety
The managers and directors in the operating divisions are personally responsible and accountable for the health & safety of their employees The health & safety requirements of these two divisions necessarily differ somewhat and as such, each of the operating divisions reviews its own strategy, issues and performance on a regular basis

As it is the policy to drive all elements of the business at a local level, depot managers are responsible for the health and safety of the staff their depots To help them in this task, they participate in the Health and Safety Management Training programme which provides training on a three year basis for all depot managers A defensive driving course continues to be run for those staff in the depots that are required to drive as part of their day to day role

All manufacturing, warehouse and distribution sites are now certified to OHSAS 18001, while staff are continually encouraged to gain externally accredited health & safety qualifications (IOSH, NEBOSH and CIEH)

Across the group, there were no improvement or prohibition notices served on us during the year by the Health & Safety Executive (HSE), nor were there any prosecutions by the HSE or the Environment Agency

Committed to playing an active part in our local communities

Each depot, manufacturing site and distribution centre fulfils an important role in the life of the area it serves, and all staff are encouraged to make a contribution to the local community

This year, staff donated £583,000 across the Company (2008 £424,000) to local good causes As well as cash donations and employee fund raising initiatives, the Company donated joinery and kitchen equipment to local schools, village halls, care homes, local youth groups and sports clubs

Leonard Cheshire Disability is a key community partner for Howden Joinery, and mindful of their reliance on volunteer support, in 2009 the Company increased its contributions to their volunteer recruitment and training programme, while staff continue to find ways to fundraise for Leonard Cheshire

The Company's inclusive kitchen research with Leonard Cheshire, inspired by working with their residents, helps the business to offer relevant, affordable kitchen solutions to customers, regardless of their ability Howden Joinery's multi-ability kitchen solutions, available from stock, work particularly well for local authorities and housing associations, who have to meet minimum criteria for the housing of disabled residents, frequently without knowing for whom they are providing facilities before they are installed

The Company is proud of the fact that staff, customers and all stakeholders take such an active part in giving something back to their local communities In celebration of their generosity, in Spring 2009 the Company launched a series of "Truly Local" books, detailing only a fraction of the good work carried out by staff and customers and their families as part of their daily lives within their local communities

DIRECTORS

The directors of the Company who served throughout the period were

M Ingle
C Youell
M Robson
R Fenwick
D Hallett
A Witts
C Bishop (appointed 31/3/09)

No director held any beneficial interest in the shares of the Company at any time during the period

SUPPLIER PAYMENT POLICY

It is the Company's policy on payment of suppliers to agree terms of payment prior to commencing trade, and to abide by those terms on a timely submission of satisfactory invoices The number of days purchases outstanding for payment by the Company at the year end was 33 days *(2008 37 days)*

POLITICAL AND CHARITABLE CONTRIBUTIONS

The Company made charitable donations during the period amounting to £583,000 *(2008 £ 424,000)* The Company made no political donations during the current or previous period

AUDITORS

Each of the persons who is a director at the date of approval of this annual report confirms that

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the director has taken all the steps he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information

The confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006

Deloitte LLP has indicated their willingness to be reappointed for another term and appropriate arrangements have been put in place for them to be reappointed as auditors in the absence of an Annual General Meeting

REGISTERED OFFICE

The company's registered office is International House, 66 Chiltern Street, London, W1U 4JT

STATEMENT OF DIRECTORS' RESPONSIBILITIES

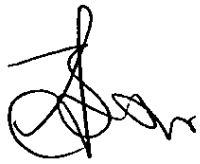
The directors are responsible for preparing the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable accounting standards have been followed, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006 They are also responsible for the system of internal control, safeguarding the assets of the company and hence for taking responsible steps for the prevention and detection of fraud and other irregularities

By Order of the Board



C Bishop
Company Secretary
27 April 2010

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF HOWDEN JOINERY LIMITED

We have audited the financial statements of Howden Joinery Limited for the 52 weeks ended 26 December 2009 which comprise the Profit and Loss Account, the Balance Sheet, and the related notes 1 to 20 The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice)

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed

Respective responsibilities of directors and auditors
As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the Company financial statements and for being satisfied that they give a true and fair view Our responsibility is to audit the Company financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland) Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors

Scope of the audit of the financial statements
An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements

Opinion on financial statements
In our opinion the financial statements

- give a true and fair view of the state of the company's affairs as at 26 December 2009 and of its profit for the 52 weeks then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006

Opinion on other matter prescribed by the Companies Act 2006
In our opinion

- the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements

Matters on which we are required to report by exception
We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit

John Adam (Senior Statutory Auditor)

1. ACCOUNTING POLICIES

The accounting policies summarised below have all been applied consistently throughout the current period and the preceding period

BASIS OF PREPARATION

The financial statements are prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards The financial statements have been prepared on a going concern basis as discussed in the Directors' Report

Under Financial Reporting Standard 1, the Company is exempt from the requirement to prepare a cash flow statement on the grounds that it is a wholly owned subsidiary undertaking and a consolidated cash flow statement is given in the financial statements of Galiform Plc

The financial statements include the undertakings for the 52 week period ended 26 December 2009 The comparative period covers the 52 weeks ended 27 December 2008

The Company is exempt from the requirement to prepare Group financial statements under s400 of the Companies Act 2006 since its results are included in the consolidated financial statements of its ultimate parent company, Galiform Plc Accordingly these accounts present information about the company as an individual undertaking and not its group

TURNOVER

Turnover represents the net value of goods and services sold to customers excluding value added tax All turnover arises in the United Kingdom

TANGIBLE FIXED ASSETS

Fixed assets are stated at cost net of accumulated depreciation and any provision for impairment Depreciation is provided to write off the cost less any residual value of tangible fixed assets over their estimated useful lives as follows

Equipment and machinery	4 – 10 years
Computer equipment, fixtures and fittings, plant and equipment	3 – 10 years

STOCKS

Stocks are valued at the lower of cost and net realisable value Cost includes materials, direct labour and an attributable proportion of manufacturing overheads based on normal levels of activity Net realisable value is based on estimated selling price less further costs expected to be incurred to completion and disposal Provision is made for obsolete, slow moving stock or defective items where appropriate

TAXATION

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date Timing differences are differences between the Group's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements

A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

1. ACCOUNTING POLICIES (Continued)
TAXATION (Continued)

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on sale has been recognised in the financial statements Neither is deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged to tax only if and when the replacement assets are sold

Deferred tax is recognised in respect of the retained earnings of overseas subsidiaries and associates only to the extent that, at the balance sheet date, dividends have been accrued as receivable or a binding agreement to distribute past earnings in future has been entered into by the subsidiary or associate

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date Deferred tax is measured on a non-discounted basis

LEASED ASSETS
Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards of ownership to the Group All other leases are classified as operating leases For property leases, the land and building elements are treated separately to determine the appropriate lease classification

Finance leases
Assets funded through finance leases are capitalised as property plant and equipment, and depreciated over their estimated useful lives or the lease term, whichever is shorter The amount capitalised is the lower of the fair value of the asset or the present value of the minimum lease payments during the lease term at the inception of the lease The resulting lease obligations are included in liabilities net of finance charges Finance costs on finance leases are charged directly to the income statement

Operating leases
Expenditure under operating leases is charged to the profit and loss account on a straight-line basis over the period of the lease

FOREIGN CURRENCY TRANSACTIONS
Transactions in foreign currency are translated at the foreign exchange rate ruling at the date of the transaction Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the exchange rate ruling at the date Foreign exchange gains and losses are recognised in the profit and loss account

INVESTMENTS
Investments are stated at cost less any provision for impairment

PENSIONS
i) Defined benefit pension schemes
The Company participates in its parent company's (Galiform Plc) group retirement benefit scheme This is a defined benefit arrangement, operating through a multi-employer defined-benefit scheme The assets and liabilities of the scheme are held separately from those of the Galiform Group The company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme as if it was a defined contribution scheme This is in line with the guidance in FRS 17 relating to group defined benefit pension schemes

1. ACCOUNTING POLICIES (Continued)

PENSIONS (Continued)

ii) Defined contribution pension schemes

The Galiform Group operates a defined contribution scheme for its employees For defined contribution schemes, the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contributions payable in the year Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet

SHARE-BASED PAYMENTS

The Company has adopted FRS 20 "Share-based payment" In accordance with the transitional provisions, FRS 20 has been applied to all grants of equity instruments after 7 November 2002 that were unvested as of 25 December 2005

The Company issues equity-settled share-based payments to certain employees, based on the shares of its ultimate parent company Galiform Plc Equity-settled share-based payments are measured at fair value at the date of grant The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest

Fair value is measured by use of either a binomial model or a Black-Scholes-based model, depending on which model most closely reflects the terms of each individual share-based payment arrangement The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations

2. PROFIT ON ORDINARY ACTIVITIES BEFORE TAXATION

The profit on ordinary activities before taxation is stated after charging

	26 Dec 2009	27 Dec 2008
	£000	£000
Depreciation	**12,583**	11,289
Hire of plant and machinery – rentals	**9,861**	13,243
Rent payable on property	**39,650**	39,429
Loss on disposal of fixed assets	**241**	152
Foreign exchange loss	**48**	10,383
Fees payable to the Company's auditors for the audit of the Company's annual accounts	**140**	130

The auditors' remuneration is £140,000 for audit services and £97,000 for tax services *(2008 £130,000 for audit services and £66,000 for tax services)*

3. STAFF NUMBERS AND COSTS (INCLUDING DIRECTORS)

The average number of persons (full-time equivalent) who worked for the Company during the period including those who were employed by a fellow Galiform Plc Group subsidiary, Group People Services Limited, was as follows

	26 Dec 2009	27 Dec 2008
	No.	No
Manufacturing and distribution	**972**	1,103
Depots	**3,955**	3,994
Head office	**516**	513
	5,443	5,610

3. STAFF NUMBERS AND COSTS (INCLUDING DIRECTORS) (Continued)

The aggregate payroll costs of these persons were as follows	26 Dec 2009 £000	27 Dec 2008 £000
Wages and salaries	**141,973**	148,691
Social security costs	**13,661**	14,452
Other pension costs	**12,156**	20,150
Share-based payment (credit)/charge (note 21)	**(295)**	1,401
	167,495	184,694

4. REMUNERATION OF DIRECTORS

The emoluments of the directors were as follows

	26 Dec 2009 £000	27 Dec 2008 £000
Directors' emoluments	**846**	678
Pension costs	**39**	32
	885	903

The aggregate emoluments of the highest paid director in the 52 weeks to 26 December 2009 were £468,929 (*2008 £361,867*) and Company pension contributions of £17,880 (*2008 £16,412*) were made on his behalf Based on normal retirement age the accrued pension of the highest paid director, should he leave employment at the end of the financial year, is £115,400 (*2008 £114,300*)

5. EXCEPTIONAL ITEMS

Exceptional items in the 52 weeks to 26 December 2009 were as follows:

	Selling and Administrative costs £000	Loss on Disposal £000	26 Dec 2009 Total £000
Release of 2007 restructuring provision	**298**	**-**	**298**
Release of provisions relating to contractual obligations	**900**	**-**	**900**
Release of intercompany creditors	**5,782**	**-**	**5,782**

	555,312	565,551

	26 Dec 2009 £000	27 Dec 2008 £000
Amounts falling due after more than one year:		
Non – current portion of amounts due under finance leases	**396**	867
	396	867

12. PROVISIONS

	Dilapidations £000	Warranties £000	Total £000
At 27 December 2008	-	2,999	2,999
Provision created in the period	338	2,057	2,395
Utilised in year	-	(2,356)	(2,356)
Released in year	-	(1,111)	(1,111)
At 26 December 2009	**338**	**1,589**	**1,927**

Provisions for warranties relate to appliance products sold and cover a period of one year

13. DEFERRED TAXATION

	£000
At 27 December 2008	6,638
Charged during the period	672
Adjustments in respect of prior periods	(1,170)
At 26 December 2009	**6,140**

The deferred taxation asset included in debtors is analysed as follows

	26 Dec 2009 £000	27 Dec 2008 £000
Accelerated capital allowances	**3,499**	5,894
Other timing differences	**2,641**	744
	6,140	6,638

14. SHARE CAPITAL

	26 Dec 2009 £000	27 Dec 2008 £000
100,000,000 authorised ordinary shares of £1 00 each	**100,000**	100,000
100,000,000 allotted, called up, issued fully paid ordinary shares of £1 00 each	**100,000**	100,000

15. RECONCILIATION OF MOVEMENT IN SHAREHOLDERS' FUNDS

	Share Capital	Profit and Loss Reserve	Share-based payments reserve	Shareholders ' Funds
	£'000	£'000	£'000	£'000
At 27 December 2008	100,000	213,664	3,824	317,488
Profit for the period 2009	-	60,729	-	60,729
Share- based payments credit	-	-	(295)	(295)
Waiver of intercompany balances	-	(225,470)	-	(225,470)
At 26 December 2009	**100,000**	**48,923**	**3,529**	**152,452**

During the year the Company waivered intercompany loans to its parent company, Galiform Plc and to fellow subsidiary Howden Kitchen Limited

16. ULTIMATE PARENT COMPANY AND RELATED PARTY TRANSACTIONS

The Company's immediate parent company is Galiform Holdings Ltd and the ultimate parent company and controlling entity is Galiform Plc, both incorporated in Great Britain and registered in England and Wales

The largest and smallest group in which the results of the Company are consolidated is that headed by Galiform Plc The consolidated accounts of this group are available to the public and can be obtained from the Registrar of Companies, Companies Registration Office, Crown Way, Maindy, Cardiff, CF14 3UZ

The Company is exempt under FRS 8 from the requirement to disclose transactions with the group headed by Galiform Plc on the grounds that it is a wholly owned subsidiary

17. PENSIONS

i) Defined contribution pensions

The Galiform Group operates a defined contribution scheme for its employees The Company's pension charge for the current year for defined contribution pension schemes was £740,000 (*2008 £743,000)* There were no outstanding contributions at the period end

ii) Defined benefit pensions

The Company participates in the Galiform Plc Group retirement benefit plan This is a defined benefit multi-employer arrangement, which operates through a funded pension scheme which provides benefits based on the final pensionable pay of participating employees The assets of the scheme are held separately from those of the Group, being invested with independent fund managers The Company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme as if it was a defined contribution scheme This is the prescribed treatment in FRS 17 "Retirement Benefits"

Further information about the Galiform plc defined-contribution retirement benefit schemes is available in the Galiform Plc statutory accounts The latest actuarial valuation of the Group defined contribution schemes was carried out at 6 April 2008 by the scheme actuary This was subsequently rolled forward to 26 December 2009 by the actuary advising the Group, and restated on a basis consistent with market conditions at that date This exercise showed a scheme deficit at 26 December 2009 of £196 3m (2008 £122 2m), before netting off the associated deferred tax asset The roll-forward was done according to the requirements of International Accounting Standard 19 "Employee Benefits" ("IAS 19"), under which the Galiform Group reports its results), rather than FRS 17 (under which this Company reports its results) However, management have no reason to believe that there would be any significant difference between a valuation under FRS 17 and one under IAS 19 Further details are given in the consolidated financial statements of Galiform Plc

17. PENSIONS (continued

The Company's defined benefit pension charge for the year was £8,941,000 (*2008 £10,256,000*) There were no outstanding Company contributions at the period end

The Group adopted IFRS with effect from 26 December 2004, and therefore the Group consolidated financial statements disclose pension charges, assets, and liabilities in line with IAS 19 ' Employee Benefits" The Group does not believe that there are any material differences between the net pension deficit and the pension charge under IAS 19, compared to under FRS17 It may therefore be useful to users of these accounts to consult the full IAS 19 disclosures given in the consolidated financial statements of Galiform Plc

There was £955,000 of pension costs unpaid but provided for at 26 December 2009 *(2008 £Nil)*

18. FINANCIAL COMMITMENTS

The annual commitments under non-cancellable operating leases are set out below

Plant and machinery operating leases which expire	26 Dec 2009 £000	27 Dec 2008 £000
Within one year	996	898
Between two and five years	5,854	6,496
Over five years	2,009	740
	8,859	8,134

19. FINANCE LEASES

The finance lease obligations are repayable as follows	26 Dec 2009 £000	27 Dec 2008 £000
Current liabilities		
Within one year	487	429
Non-current liabilities		
In the second year	397	478
In the third to fifth years inclusive	-	390
Total finance lease obligations	884	1,297

All finance lease obligations are in sterling Each lease contract is at a fixed rate The weighted average of the fixed rates on the various contracts is 5% at the current year end *(2008 5%)* The finance lease obligations are unsecured The average remaining lease term is 1 year and 9 months (2008 2 yrs 10m)

Reconciliation of total future minimum lease payments to their present value

	Minimum lease payments		Present value of minimum lease payments	
	26 Dec 2009 £000	27 Dec 2008 £000	26 Dec 2009 £000	27 Dec 2008 £000
Amounts payable under finance leases				
Within one year	537	516	492	429
In the second year	409	527	392	478
In the third to fifth years inclusive	-	401	-	390
	946	1,444	884	1,297
Less future finance charges	(62)	(147)		
Present value of lease obligations	884	1,297		
Disclosed as				
Current	487	429		
Non-current	397	868		
	884	1,297		

20. SHARE BASED PAYMENTS

1) Charge for the period and details of each scheme
The Company recognised a credit of £295k (*2008 charge of £1 3m*) in respect of share-based payments during the period This charge is included as part of Staff Costs The Company has various share-based payment schemes, which are all equity-settled The main details of all schemes which existed during the period are given below

Galiform PLC, the ultimate holding company, has various share-based payment schemes, which are all equity-settled and which are offered from time to time to Galiform Group employees The main details of all schemes which existed during the period are given below

All schemes relate to shares in Galiform PLC All references in paragraphs (1) (a) to (f), and paragraph (3) below to "the Company", share price, EPS, Total Shareholder Return ("TSR"), market price, dividend yield, and volatility refer to Galiform PLC, and its 10p ordinary shares

a) Performance Share Plan
This is a discretionary free share plan where participants have a contingent right to receive free shares with performance conditions attached

The performance period is measured from the start of the financial period in which the awards are granted The performance period is three years Vesting occurs at the end of the performance period The different subdivisions and performance conditions are as follows

i) no other condition other than continued employment
ii) 50% of the Options shall be exercisable if the compound annual growth in the Group's Operating Profit over the performance period is at least 10% rising to 100% if compound annual growth over the same period is at least 20%
iii) 25% of the award will vest if 2010 PBT of £110 million is achieved 100% will vest if 2010 PBT of £135 million is achieved The awards will vest on a sliding scale between these two points

b) (i) Deferred Bonus Plan - 2008 grant
Under the Co-Investment Plan participants can defer some or all of their cash bonus into shares and pledge these deferred shares as "invested shares" under the plan (see below (d)) The deferred share awards in 2008 are the result of participants deferring the cash bonuses awarded to them in March 2008 The shares are held in trust and participants are entitled to dividends during the deferral period A participant can remove the shares from the Trust at any time but as they would no longer be pledged as Invested Shares under the Co-Investment Plan, then unless replaced, the participant would forego the resulting match

c) 2007 Executive Co-investment Plan
This is a co-investment plan where each participant is permitted to invest a limited amount of shares on an annual basis for the purposes of the Plan

(i) (A) 2007 award PBT targets At the end of a three year performance period, each invested share will be matched by an award of up to three matching shares if 2010 PBT of £135m is achieved, 25 percent of the maximum match (i e 0 75 1) will be earned for achieving 2010 PBT of £110 million and the awards will vest on a sliding scale between these two points

20. SHARE BASED PAYMENTS (continued)

(ii) (A) 2007 award TSR target A further match of up to two shares will be made for achieving upper quartile Total Shareholder Return (TSR), measured against the FTSE 250 Index (excluding investment trusts)

d) Foundation Plan
This plan awards nil-cost options, and also options with an exercise price equal to the market price at the date of grant

2006 Awards
These vested on the last day of the 2005/06 financial year, as the performance conditions were met There is a further deferral period of two years before the awards are made available to the participants

Vesting of awards granted in the form of nil-cost options depended on the achievement of a share price hurdle over thirty consecutive dealing days 15% of the award vests for the achievement of 95 pence and 100% of the award vests for the achievement of 125 pence The award vests on a straight line basis between these two points

Vesting of awards granted in the form of options with an exercise price equal to the market price at the date of grant vest depended on the achievement of a share price hurdle over thirty consecutive dealing days The exercise price of the options granted in 2006 was 92p 35% of this award vests if the share price achieves 115 pence over thirty consecutive dealing days, and 100% of the award vests if the share price achieves 160 pence over thirty consecutive dealing days The award vests on a straight line basis between these two points

2007 Awards
These awards were granted in the form of nil cost options and vested on the last day of the 2006/7 financial year to the degree that the performance conditions had been met There is a further deferral period of two years before the vested awards are made available to the participants

e) Executive Share Options
This is a discretionary share option plan These options are granted with an exercise price equal to market value

The vesting period is three years from the date of grant with an exercise period of seven years (i e a total life of ten years) In the information below, these options have been further subdivided according to their different performance conditions, in order to give more meaningful information The different subdivisions and performance conditions are as follows

i) 40% vesting if EPS growth equals RPI+40%, rising to 100% vesting for EPS growth of RPI+100%
ii) 50% vesting if there is EPS growth of 60% over the performance period, and 100% vesting if there is EPS growth of 120% over the performance period
iii) No other condition except for continued employment with the Group
iv) EPS growth must equal RPI + 9% If this is achieved there will be full vesting If this is not achieved there will be no vesting
v) 20% of the options will vest if the share price over 30 consecutive dealing days is 185p rising on a straight line basis to 100% vesting if the share price over 30 consecutive days reaches 265p Underpinning this is a requirement to achieve 20% annual compound growth over the performance period

f) LongTerm Incentive Plan - Options
Full vesting will occur if the Group's cumulative profit before tax is at least £90m over the three financial years ending December 2009, 2010, and 2011 If this is not achieved there will be no vesting

20 SHARE BASED PAYMENTS (continued)

g) Share Incentive Scheme (Freeshares)

This is an 'all-employee' share incentive plan whereby participants receive a grant of free shares in the Company If the employees are still employed by the Group three years after the grant, then the shares vest Dividends are paid out on the shares between award date and vesting date There are no other performance conditions attached to these awards

h) SAYE (Sharesave)

This is a save as you earn scheme for all employees whereby participants receive an option to purchase shares at a later date at a price equal to the market price at grant date The term of this scheme is five years ending on 1 12 08 Participants have a right to exercise options for a period of six months after this date

2) Movements in the period

The following tables show the number and weighted average exercise prices ("WAEP") of each category of share options during the period, and the movements in each category The significance of options granted before 7 November 2002 is that they have been excluded from the IFRS2 share-based payment charge on the basis of their date of grant, as allowed on adoption of IFRS

20. SHARE-BASED PAYMENTS (continued)

4) Fair value of options granted

The fair value of all options granted except Sharesave is estimated on the date of grant using a binomial option valuation model Sharesave schemes are valued using a Black Scholes model as they are not considered to be of such complexity that they require a binomial model

The key assumptions used in the models were

	52 weeks to 26 December 2009	52 weeks to 27 December 2008
Dividend yield (%)	**0.71**	2 0
Expected share price volatility (%)	**46**	36 0 to 39 0
Historical volatility (%)	**46**	36 0 to 39 0
Risk-free interest rate (%)	**4.47**	5 0 to 5 8
Expected life of options (years)	**2.57**	2 5 to 3 2

Historical volatility is measured for each scheme over the period equal to the vesting period of the scheme The figure arrived at is then used as the best estimate of expected future volatility
