STRATEGIC REPORT AND DIRECTORS' REPORT

STRATEGIC REPORT

Howden Joinery Limited ("the Company") is a wholly owned subsidiary of Howden Joinery Group Plc ("the Group"). The Company designs, and either sources or manufactures, kitchens and joinery products, and then sells these products to the building trade, predominantly small local builders, via a nationwide network of depots.

As shown in the Company's profit and loss account, sales are £944m for the period *(2012: £876m)*. The profit on ordinary activities before taxation is £149m *(2012: £110m)* and profit for the financial period is £112m *(2012: £78m)*. The directors do not recommend payment of a final dividend *(2012:£ 90m)*.

The balance sheet shows the Company's financial position at the end of the year. Details of amounts owed to and from the parent and other group companies are shown in notes 10 and 11.

The Group manages its operations on a Group basis and the consolidated group report and accounts include a consolidated strategic report. Pursuant to Section 414(A) (4) of the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013, which provides that a group strategic report may give greater emphasis to the matters that are significant to the undertakings included in the consolidation when taken as a whole, the following information in relation to the Company can be found in the Group's Annual Report on the pages listed:

• Fair review of the business	pages 18-21
• Description of the principal risks and uncertainties facing the Group and its subsidiary undertakings	pages 22-23
• Financial and non-financial KPIs	pages 21, 25-32
• Future developments	pages 12-13, 17, 21
• Information about environmental matters, social, community and human rights issues	pages 25-32
• Description of business model and strategy	pages 2-17
• Information in relation to Group Employees, including gender statistics, employee involvement and Group policy on the employment of disabled persons	pages 58-64, 71-74

This report is available as part of the Group's Annual Report which is available at http://www.howdenjoinerygroupplc.com/ and which does not form part of this report.

HOWDEN JOINERY LIMITED
DIRECTORS' REPORT

The directors have pleasure in submitting their report and the audited financial statements of the Company for the 52 weeks ended 28th December 2013 (2012: *53 weeks ended 29th December 2012).*

DIRECTORS
The directors of the Company who served throughout the period, except as noted, were:

M Ingle
C Youell
M Robson
R Fenwick
D Hallett
A Witts
C Bishop

No director held any beneficial interest in the shares of the Company at any time during the period.

DIVIDEND
The directors do not recommend payment of a dividend *(2012: £90m).*

EMPLOYEES
The Company had 6,297 employees *(2012:5,998)* during the period and staff costs amounted to £216,191,000*(2012: £209,545,000*).

POLITICAL CONTRIBUTIONS
The Company did not make any political donations during the period (2012: *£nil).*

AUDITOR
Each of the persons who is a director at the date of approval of this annual report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the director has taken all the steps he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

The confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Deloitte LLP have indicated their willingness to be reappointed for another term and will be deemed to be reappointed in accordance with s485 - 488 of the Companies Act 2006.

GOING CONCERN

The current economic conditions create uncertainty particularly over (a) the level of demand for the Company's products and (b) the exchange rate between sterling and both the Euro and the US Dollar which would impact the cost of the Company's operations.

The Company's forecasts and projections have been stress-tested for reasonably possible adverse variations in trading performance. The results of this testing show that the Company should be able to operate for the foreseeable future.

The Company's trade receivables and inventory balances act as security on the Group's asset-backed bank facility. The security on these assets could be called upon if the Group were to breach its borrowing facility or covenants. In addition the pension trustees have a charge on the shares of the Company and have a separate covenant test on the EBITDA for Howden Joinery. This charge could be called upon if there were to be a breach of this covenant.

The Group's latest forecasts and projections have been stress-tested for reasonably possible adverse variations in trading performance and show the Group should be able to operate within the terms of its current borrowing facility

and covenants for the foreseeable future. On this basis the directors of the Company believe that the security on the facility could not be called upon.

After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the accounts.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the

state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records which are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HOWDEN JOINERY LIMITED

We have audited the financial statements of Howden Joinery Limited for the 52 weeks ended 28 December 2013 which comprise the Profit and Loss Account, the Balance Sheet, and the related notes 1 to 21. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 28 December 2013 and of its profit for the 52 weeks then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

1. ACCOUNTING POLICIES

The accounting policies summarised below have all been applied consistently throughout the current period and the preceding period.

BASIS OF PREPARATION

The financial statements are prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards. The financial statements have been prepared on a going concern basis as discussed in the Directors' Report.

Under Financial Reporting Standard 1, the Company is exempt from the requirement to prepare a cash flow statement on the grounds that it is a wholly owned subsidiary undertaking and a consolidated cash flow statement is given in the financial statements of Howden Joinery Group Plc.

The financial statements include the undertakings for the 52 week period ended 28 December 2013. The comparative period covers the 53 weeks ended 29 December 2012.

The Company is exempt from the requirement to prepare Group financial statements under s400 of the Companies Act 2006 since its results are included in the consolidated financial statements of its ultimate parent company, Howden Joinery Group Plc. Accordingly these financial statements present information about the Company as an individual undertaking and not its group.

TURNOVER

Turnover represents the net value of goods and services sold to customers excluding value added tax. All turnover arises in the United Kingdom and is recognised on despatch of goods and services provided to customers, excluding sales taxes and discounts.

TANGIBLE FIXED ASSETS

Fixed assets are stated at cost net of accumulated depreciation and any provision for impairment. Depreciation is provided to write off the cost less any residual value of tangible fixed assets over their estimated useful lives as follows:

Equipment and machinery	4 – 10 years
Computer equipment, fixtures and fittings, plant and equipment	3 – 10 years

STOCKS

Stocks are valued at the lower of cost and net realisable value. Cost includes materials, direct labour and an attributable proportion of manufacturing overheads based on normal levels of activity. Net realisable value is based on estimated selling price less further costs expected to be incurred to completion and disposal. Provision is made for obsolete, slow moving stock or defective items where appropriate.

TAXATION

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Group's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

1. ACCOUNTING POLICIES (Continued)

TAXATION (Continued)

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on sale has been recognised in the financial statements. Neither is deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged to tax only if and when the replacement assets are sold.

Deferred tax is recognised in respect of the retained earnings of overseas subsidiaries and associates only to the extent that, at the balance sheet date, dividends have been accrued as receivable or a binding agreement to distribute past earnings in future has been entered into by the subsidiary or associate.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

LEASED ASSETS

Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards of ownership to the Company. All other leases are classified as operating leases. For property leases, the land and building elements are treated separately to determine the appropriate lease classification.

Finance leases

Assets funded through finance leases are capitalised as property, plant and equipment, and depreciated over their estimated useful lives or the lease term, whichever is shorter. The amount capitalised is the lower of the fair value of the asset or the present value of the minimum lease payments during the lease term at the inception of the lease. The resulting lease obligations are included in liabilities net of finance charges. Finance costs on finance leases are charged directly to the income statement.

Operating leases

Expenditure under operating leases is charged to the profit and loss account on a straight-line basis over the period of the lease.

FOREIGN CURRENCY TRANSACTIONS

Transactions in foreign currency are translated at the foreign exchange rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the exchange rates ruling at the date. Foreign exchange gains and losses are recognised in the profit and loss account.

INVESTMENTS

Investments are stated at cost less any provision for impairment.

PENSIONS

i) Defined benefit pension scheme:

The Company participates in its parent company's (Howden Joinery Group Plc) group retirement benefit scheme. This is a defined benefit arrangement, operating through a multi-employer defined-benefit scheme. The assets and liabilities of the scheme are held separately from those of the Group. The Company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme as if it was a defined contribution scheme. This is in line with the guidance in FRS 17 relating to group defined benefit pension schemes.

ii) Defined contribution pension schemes:

The Group operates two defined contribution scheme for its employees, one of these schemes is an auto enrolment scheme. For defined contribution schemes, the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

1. ACCOUNTING POLICIES (Continued)

SHARE-BASED PAYMENTS

The Company has adopted FRS 20: "Share-based payments". In accordance with the transitional provisions, FRS 20 has been applied to all grants of equity instruments after 7 November 2002 that were unvested as of 25 December 2005.

The Company issues equity-settled share-based payments to certain employees, based on the shares of its ultimate parent company Howden Joinery Group Plc. Equity-settled share-based payments are measured at fair value at the date of grant. The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of shares that will eventually vest.

Fair value is measured by use of either a binomial model or a Black-Scholes-based model, depending on which model most closely reflects the terms of each individual share-based payment arrangement. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

2. PROFIT ON ORDINARY ACTIVITIES BEFORE TAXATION

The profit on ordinary activities before taxation is stated after charging/(crediting):

	52 weeks to 28 Dec 2013 £000	53 weeks to 29 Dec 2012 £000

Total non-audit fees	**125**	94

3. STAFF NUMBERS AND COSTS (INCLUDING DIRECTORS)

Some of the Company's employees are paid directly by the Company. In addition, there are a number of other employees, who work full-time in the operations of this Company, but who are employed by a fellow Howden Joinery Group Plc Group subsidiary, Howden Joinery People Services Limited, and whose employment costs are recharged to this Company in full. The figures given below for staff numbers and costs include both groups of employees, in order to give more meaningful information.

The average number of persons (full-time equivalent) who worked for the Company during the period, including those who were employed by Howden Joinery People Services Limited, was as follows:

17. PENSIONS

i) Defined contribution pension

The Group operates a defined contribution scheme for its employees. The assets of this scheme are held separately from those of the Group, and are under the control of the scheme trustees. This scheme began operation during 2006.

The total cost charged to income in respect of this scheme in the current period of £0.4m (2012: £0.4m) represents the Company's contributions due and paid in respect of the period.

ii) Defined contribution : auto enrolment pension

The Group operates an auto-enrolment defined contribution scheme for employees, in line with recent UK Government legislation. Under the terms of this scheme, employees make pension contributions out of their salaries, and the Group also makes additional contributions. The Group decided to give employees the option to enter this scheme earlier than the mandatory start date, and so the auto-enrolment scheme was open to employees from November 2012 on a voluntary, opt-in, basis, although it was not mandatory to enrol employees into this scheme until July 2013.

The total cost charged to income in respect of this scheme in the current period of £1.1m (2012: £0.1m) represents the Company's contributions due and payable in respect of the period. Due to the timing of payments, £0.2m (2012: £nil) of this amount was unpaid at the period end, but was paid shortly afterwards.

iii) Defined benefit pensions

The Group operates a funded pension scheme which provides benefits based on the pensionable pay of participating employees. This scheme was closed to new entrants from April 2013. The assets of the scheme are held separately from those of the Group, being invested with independent fund managers. Contributions are charged to the consolidated income statement so as to spread the cost of pensions over the employees' working lives with the Group. The present value of the defined benefit obligation, the related current service cost, and past service cost are determined by a qualified actuary using the projected unit method. The most recent completed actuarial valuation was carried out at 5 April 2011 by the scheme actuary. The actuary advising the Group has subsequently rolled forward the results of the 5 April 2011 valuation to 28 December 2013, and has restated the results onto a basis consistent with market conditions at that date.

The Company's defined benefit pension charge for the year was £12.0m *(2012: £12.7m)* There were no pension costs unpaid but provided for at 28 December 2013 *(2012: £nil)*.

17. **PENSIONS (continued)**

The Group adopted IFRS with effect from 26 December 2004, and therefore the Group consolidated financial statements disclose pension charges, assets, and liabilities in line with IAS 19 "Employee Benefits". The Group does not believe that there are any material differences between the net pension deficit and the pension charge under IAS 19, compared to under FRS17. It may therefore be useful to users of these accounts to consult the full IAS 19 disclosures given in the consolidated financial statements of Howden Joinery Group Plc.

18. **FINANCIAL COMMITMENTS**

The annual commitments under non-cancellable operating leases are set out below:

Plant and machinery operating leases which expire:	28 Dec 2013 £000	29 Dec 2012 £000

20. SHARE BASED PAYMENTS

1) Details of each scheme

The Company recognised a charge of £3.3m (2012: charge of £1.3m) in respect of share-based payments during the period. The Company has various share-based payments schemes, which are all equity-settled,and all of which relate to shares in the parent company Howden Joinery Group Plc. Any references to profit targets relate to profits of the parent company and not of this Company.. The main details of all the schemes which existed during the period are given below.

a) Co-Investment Plan

This is a co-investment plan where each participant is permitted to invest a limited amount of shares on an annual basis for the purposes of the Plan.

(i) 2011 award: 25% of the award will vest if PBT growth at the end of the 2013 financial year is at a rate of 6% p.a., based on the December 2010 accounts. 100% of the award will vest if PBT growth on the same basis is 12% p.a. or above.

***b)* Executive Share Options**

This is a discretionary share option plan. These options are granted with an exercise price equal to market value.

The vesting period is three years from the date of grant with an exercise period of seven years (i.e. a total life of ten years). In the information below, these options have been further subdivided according to their different performance conditions, in order to give more meaningful information. The different subdivisions and performance conditions are as follows:

i) 40% vesting if EPS growth equals RPI+40%, rising to 100% vesting for EPS growth of RPI+100%.

ii) EPS growth must equal RPI + 9%. If this is achieved there will be full vesting. If this is not achieved there will be no vesting.

***c)* LongTerm Incentive Plan - Options**

This is a discretionary plan under which the Company may grant different types of share award including market value and nil cost options, conditional awards of shares and restricted shares (where the employee is the owner of the shares from the date of award but subject to forfeiture). Unless otherwise specified all awards have substantially the same terms.

(i) Market value options, the vesting period for which is three years from the date of grant with an exercise period of seven years (i.e. a total life of ten years). Options will vest if cumulative PBT of £90m is achieved over the three financial years ending 2009, 2010 and 2011.

(ii) Market value options which vest after a three year period from the date of grant. 15% of the options will vest if the group achieves growth in pre-exceptional PBT equivalent to RPI over the performance period; 100% will vest if pre-exceptional PBT growth is equivalent to RPI + 8% is achieved.

(iii) Conditional Share Award - shares will vest at the end of a three year period commencing on the date of grant subject to continuing employment.

(iv) 2011 Grant - 25% of the award will vest if PBT growth at the end of the 2013 financial year is at a rate of 6% p.a., based on the December 2010 accounts. 100% of the award will vest if PBT growth on the same basis is 12% p.a. or above.

***d)* Share Incentive Scheme (Freeshares)**

This is an 'all-employee' share incentive plan whereby participants receive a grant of free shares.. If the employees are still employed by the Group three years after the grant, then the shares vest. Dividends are paid out on the shares between award date and vesting date. There are no other performance conditions attached to these awards.

2) Movements in the period

The following tables show the number and weighted average exercise prices ("WAEP") of each category of share options during the period, and the movements in each category. The significance of options granted before 7 November 2002 is that they have been excluded from the IFRS2 share-based payment charge on the basis of their date of grant, as allowed on adoption of FRS 20.

3) Fair value of options granted

The fair value of all options granted except Sharesave is estimated on the date of grant using a binomial option valuation model. Sharesave schemes are valued using a Black Scholes model as they are not considered to be of such complexity that they require a binomial model.

The key assumptions used in the models were:

	52 weeks to 28 December 2013	53 weeks to 29 December 2012
Dividend yield (%)	**2.5**	1.5
Expected share price volatility (%)	**52**	54
Historical volatility (%)	**52**	54
Risk-free interest rate (%)	**1.1**	3.0
Expected life of options (years)	**4.4**	4.8

Historical volatility is measured for each scheme over the period equal to the vesting period of the scheme. The figure arrived at is then used as the best estimate of expected future volatility.
