Howden Joinery Limited

Strategic Report for the Period from 25 December 2016 to 30 December 2017

The directors present their strategic report for the period from 25 December 2016 to 30 December 2017.

The Company's principal activity is described in the Directors' Report, which is located immediately below this Strategic Report. The Company's financial Key Performance Indicators are as shown in the Profit and Loss Account and Balance Sheet. We do not consider there to be any non-financial Key Performance Indicators relevant to the Company, other than those listed in the Group annual report, as detailed in the paragraph immediately below.

The Group manages its operations on a Group basis and therefore prepares a consolidated group annual report and accounts, including a consolidated strategic report. Pursuant to Section 414(A) (4) of the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013, which provides that a group strategic report may give greater emphasis to the matters that are significant to the undertakings included in the consolidation when taken as a whole, the following information in relation to the Company can be found in the Group annual report on the pages listed:

- Fair review of the business (pgs23-27)
- Description of the principal risks and uncertainties facing the Group and its subsidiary undertakings (pgs 28-32)
- Financial and non-financial KPIs (pg 22)
- Future developments (pgs 9, 26)
- Information about environmental matters, social, community and human rights issues (pgs 35-49)
- Description of culture, purpose, market, business model and strategy (pgs 12-19)
- Information in relation to Group employees, including gender statistics, employee involvement and Group policy on the employment of disabled persons (pgs 69, 93)

This report is available as part of the Group's Annual Report which is available at http://www.howdenjoinerygroupplc.com/ and which does not form part of this report.

Approved by the Board on 23 May 2018 and signed on its behalf by:

Forbes McNaughton
Company secretary

Howden Joinery Limited

Directors' Report for the Period from 25 December 2016 to 30 December 2017

The directors present their annual report and the audited financial statements for the period from 25 December 2016 to 30 December 2017.

Directors
The directors who held office during the period, were as follows:

Theresa Keating

Kevin Barrett

Clive Cockburn

Gareth Hopkins

Mark Robson

Andrew Witts

Matthew Ingle (resigned 2 April 2018)

Robert Fenwick

The following directors were appointed after the period end:

Andrew Livingston (appointed 29 January 2018)

Andrew Gault (appointed 10 April 2018)

Employees
The Company had 8,526 (prior period 8,377) employees during the current period and staff costs amounted to £313.4m (prior period £282.9m).

Principal activity
The Company designs, and either sources or manufactures, kitchens and joinery products, and then sells these products to the building trade, predominantly small local builders, via a nationwide network of depots.

Dividends
A dividend of £221.0m was proposed and paid during the current period (prior period: a dividend of £189.0m was proposed and paid).

Financial instruments

Objectives and policies, price risk, credit risk, liquidity risk and cash flow risk

These are managed on a Group basis. Further information can be found on pages 26-27 of the Howden Joinery Group Plc 2017 Annual Report and accounts, which is available at
http://www.howdenjoinerygroupplc.com/investors/financial-reporting/reports/index.asp

Political donations
The Company did not make any political donations in the current or prior period.

Charitable donations

During the period the company made charitable donations of £2,122,274. Individual donations were:

	£
Other small cash and stock donations to over 3,500 local causes	1,099,662
Leonard Cheshire Disability - sponsoring the "Can Do" project	477,000
Donating and fitting kitchens for numerous local charities	308,476
Leonard Cheshire Disability - donating and fitting kitchens	237,636

Going concern

The Company is able to meet its day-to-day working capital requirements through cash generated from operations. If required, the Company also has access to its parent company's asset-backed lending facility of £140m which expires in July 2019.

The Company's forecasts and projections have been stress-tested for reasonably possible adverse variations in economic conditions and trading performance. After reviewing the results of this testing, and making due enquiries, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Disclosure of information to the auditors

Each director has taken steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information. The directors confirm that there is no relevant information that they know of and of which they know the auditor is unaware.

Reappointment of auditors

Deloitte LLP have indicated their willingness to be reappointed for another term and will be deemed to be reappointed in accordance with s485 - 488 of the Companies Act 2006.

Approved by the Board on 23 May 2018 and signed on its behalf by:

Forbes McNaughton
Company secretary

Howden Joinery Limited

Statement of Directors' Responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 101 'Reduced Disclosure Framework' ('FRS 101'). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Howden Joinery Limited

Independent Auditor's Report to the Members of Howden Joinery Limited

Report on the audit of the financial statements

Opinion
In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 30 December 2017 and of its profit for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of Howden Joinery Limited (the 'Company') for the period from 25 December 2016 to 30 December 2017, which comprise the Profit and Loss Account, Statement of Comprehensive Income, Balance Sheet, Statement of Changes in Equity, and Notes to the Financial Statements, including a summary of significant accounting policies.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 'Reduced Disclosure Framework' (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion
We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern
We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

Other information
The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities [set out on page 5], the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and Directors' Report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and Directors' Report have been prepared in accordance with applicable legal requirements.

In the light of our knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report and the Directors' Report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Howden Joinery Limited

Notes to the Financial Statements for the Period from 25 December 2016 to 30 December 2017

1 General information

The company is a private company limited by share capital, incorporated and domiciled in England.

The address of its registered office is:
40 Portman Square
London
W1H 6LT
England

These financial statements were authorised for issue by the Board on 23 May 2018.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates
The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation
These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework. They are prepared on the historical cost basis.

Summary of disclosure exemptions
As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to business combinations, share-based payment, non-current assets held for sale, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash-flow statement, standards not yet effective, impairment of assets and related party transactions.

Where relevant, equivalent disclosures have been given in the group accounts of Howden Joinery Group Plc. These group accounts are available to the public and can be obtained from this company's registered office or at http://www.howdenjoinerygroupplc.com/investors/financial-reporting/reports/index.asp.

Going concern
The financial statements have been prepared on a going concern basis.

Exemption from preparing group accounts
The financial statements contain information about Howden Joinery Limited as an individual company and do not contain consolidated financial information as the parent of a group.
The company is exempt under section 400 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included by full consolidation in the consolidated financial statements of its parent, Howden Joinery Group Plc, a company incorporated in England.

Changes in accounting policy
None of the standards, interpretations and amendments effective for the first time from 25 December 2016 have had a material effect on the financial statements.

2 Accounting policies (continued)

Revenue recognition
Revenue comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the company's activities. Revenue is shown net of sales/value added tax, returns, rebates and discounts and after eliminating sales within the company.

The company recognises revenue when:
The amount of revenue can be reliably measured;
it is probable that future economic benefits will flow to the entity;
and specific criteria have been met for each of the company activities.

Finance income and costs policy
Interest income is recognised in the income statement as it accrues, using the effective interest method.

Foreign currency transactions and balances
Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into the respective functional currency of the entity at the rates prevailing on the reporting period date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the initial transaction dates.

Non-monetary items measured in terms of historical cost in a foreign currency are not retranslated.

Tax
The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred income tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the company. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

Tangible assets
Property, plant and equipment is stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of property, plant and equipment includes directly attributable incremental costs incurred in their acquisition and installation.

2 Accounting policies (continued)

Depreciation
Depreciation is charged so as to write off the cost of assets, other than assets under construction - which are not depreciated - over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Plant, machinery and vehicles	3 - 20 years
Leasehold property	the period of the lease, or the individual asset's life if shorter
Fixtures and fittings	2 - 15 years

Intangible assets
Our intangible assets represent computer software. Where computer software is not an integral part of a related item of computer hardware, the software is classified as an intangible asset. The capitalised costs of software for internal use include external direct costs of materials and services consumed in developing or obtaining the software and payroll and payroll-related costs for employees who are directly associated with and who devote substantial time to the project. Capitalisation of these costs ceases no later than the point at which the software is substantially complete and ready for its intended internal use.

These costs are amortised on a straight line basis over their expected useful lives, which are reviewed annually. The expected useful lives range between three and seven years, depending on the nature of the software.

Investments
Investments in securities are classified on initial recognition as available-for-sale and are carried at fair value, except where their fair value cannot be measured reliably, in which case they are carried at cost, less any impairment.

Unrealised holding gains and losses other than impairments are recognised in other comprehensive income. On maturity or disposal, net gains and losses previously deferred in accumulated other comprehensive income are recognised in income.

Cash and cash equivalents
Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Trade receivables
Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables.

2 Accounting policies (continued)

Stocks
Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. At each reporting date, inventories are assessed for impairment. If inventory is impaired, the carrying amount is reduced to its selling price less costs to complete and sell; the impairment loss is recognised immediately in profit or loss.

Trade payables
Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Provisions
Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the group will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the directors' best estimate of the expenditure required to settle the obligation at the reporting date and are discounted to present value where the effect is material.

Leases
Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee.

Assets held under finance leases are recognised as non-current assets of the company at the lower of their fair value at the date of commencement of the lease and at the present value of the minimum lease payments. These assets are depreciated on a straight-line basis over the shorter of the useful life of the asset and the lease term. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance costs in the income statement and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability

Assets leased under operating leases are not recorded on the balance sheet. Rental payments are charged directly to the income statement.

Share capital
Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

2 Accounting policies (continued)

Dividends receivable
Dividend income from subsidiary companies is recognised when receivable.

Dividends payable
Dividend distribution to the company's shareholders is recognised as a liability in the company's financial statements in the period in which the dividends are approved by the company's shareholders.

Defined contribution pension obligation
A defined contribution plan is a pension plan under which fixed contributions are paid into a separate entity and has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

For defined contribution plans contributions are paid publicly or privately administered pension insurance plans on a mandatory or contractual basis. The contributions are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as an asset.

Share based payments
The company operates an equity-settled, share-based compensation plan, under which the entity receives services from employees as consideration for equity instruments (options) of the entity. The fair value of the employee services received is measured by reference to the estimated fair value at the grant date of equity instruments granted and is recognised as an expense over the vesting period. The estimated fair value of the option granted is calculated using a binomial option pricing model. The total amount expensed is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

3 Significant accounting judgements and major sources of estimation uncertainty

The Company makes some judgements when applying its accounting policies which can have a significant effect on the amounts recognised in these financial statements. The Company also makes assumptions concerning the future and other major sources of estimation uncertainty that can result in a material adjustment to the carrying amounts of assets and liabilities within the next financial period. We discuss these below.

3 Significant accounting judgements and major sources of estimation uncertainty (continued)

Allowances against the carrying value of inventories

In order to achieve the accounting policy objective that inventories are stated at the lower of cost and net realisable value, the Company carries an allowance against products which it estimates may not sell at a price above cost, or where we may be holding levels of product in excess of estimated future demand. The Company bases these estimates on a regular review of product lifecycles and selling prices achieved in the market, and in particular on historical sales profiles of products after they have been discontinued. These estimates are updated based on actual experience, but the accuracy of the estimates at any point in time can be affected by the extent to which current products may not follow historical patterns.

Both the gross inventory balance and the amount of the allowance against their carrying value are material items and we would expect this to remain the case as the Company grows in size, and as consumer demand for regular introductions of new product continues. Details of inventories and of the allowances against their carrying amount for the current and prior period end are shown in the inventories note.

4 Turnover

The analysis of the company's turnover for the period from continuing operations is as follows:

	25 December 2016 to 30 December 2017 £ 000	27 December 2015 to 24 December 2016 £ 000
Sale of goods	1,378,980	1,288,140

5 Other gains and losses

The analysis of the company's other gains and losses for the period is as follows:

	25 December 2016 to 30 December 2017 £ 000	27 December 2015 to 24 December 2016 £ 000
Gain (loss) on disposal of tangible assets	(49)	88
Gain (loss) on disposal of intangible assets	(18)	16

	No. 000	£ 000	No. 000	£ 000
Ordinary shares of £1 each	100,000	100,000	100,000	100,000

The Company's share capital at the current and prior period end consisted of 100,000 £1 ordinary shares.

Allotted, called up and fully paid shares

	30 December 2017		24 December 2016	
	No.	£	No.	£
Ordinary shares of £1 each	100,000,000	100,000,000	100,000,000	100,000,000

20 Loans and borrowings

	30 December 2017 £ 000	24 December 2016 £ 000
Current loans and borrowings		
Finance lease liabilities	-	18

21 Obligations under leases and hire purchase contracts

Operating leases - Plant and Machinery

The total future value of minimum lease payments is as follows:

	30 December 2017 £ 000	24 December 2016 £ 000
Within one year	13,654	9,448
In two to five years	29,385	31,217
In over five years	9,726	10,372
	52,765	51,037

Rent Payable

The lease agreements for this company's properties are managed by a fellow wholly-owned Group subsidiary, and the rents are disclosed in that company.

22 Pension and other schemes

Defined contribution pension scheme

The company operates a defined contribution pension scheme. The pension cost charge for the period represents contributions payable by the company to the scheme and amounted to £3,742,802 (2016 - £3,393,329).

Defined benefit pension schemes

Plans that share risks between entities under common control

The Howden Joinery Group operates a funded pension plan which provides benefits based on the career average pensionable pay of participating employees. This plan was closed to new entrants from April 2013.

The plan shares risks between wholly-owned Group subsidiaries which are each under the control of the ultimate parent company. These risks are shared between this Company and two other wholly-owned Group subsidiaries.

There is no contractual agreement or stated policy for charging the net defined benefit cost between the participating subsidiaries. Howden Joinery Corporate Services Limited is the sponsoring employer, so the entire net defined benefit pension cost, and the entire pension deficit, appears in that company's accounts.

This company and the other participating Group subsidiary company, recognises a cost in its accounts equal to their contribution for the period.

23 Share-based payments

The ultimate parent company, Howden Joinery Group Plc ("the Group") operates various share-based payment schemes for employees in its subsidiary companies, all of which relate to shares in the Group. There are no share-based payment schemes relating to the shares in the Company. The various Group schemes are described below.

Share Incentive Scheme ("Freeshares")

Scheme description

This is an all-employee share incentive plan whereby participants receive a grant of free shares in the Group. If the employees are still employed by the Group three years after the grant, then the shares vest. Dividends are paid out on the shares between award date and vesting date. There are no other performance conditions attached to these awards.

Share Award Plan

Scheme description

This is a discretionary plan under which the Group may grant nil cost options subject to conditions as determined by the Group. The shares will vest at the end of a five year period commencing on the date of grant, subject to continuing employment.

23 Share-based payments (continued)

Co-investment Plan ("COIP")

Scheme description

This is a co-investment plan where each participant is permitted to invest a limited amount of shares on an annual basis for the purposes of the Plan. Details of the plan conditions are as follows:
Date of award: 2015; 2016
Vesting based on growth in profits - from year ended December: 2014; 2015
for the three-year period ending with the year ended December: 2017; 2018
Award vests at 15% if profits over the vesting period grow by: 8%; 8%
Award vests at 100% if profits over the vesting period grow by: 20%; 20%

If profits grow by a figure between the upper and lower thresholds for each year, the award will vest on a sliding scale.

Howden Joinery Group Long Term Incentive Plan ("LTIP")

Scheme description

This is a discretionary plan under which the Group may grant different types of share award including market value and nil cost options, conditional awards of shares and restricted shares (where the employee is the owner of the shares from the date of award but subject to forfeiture). The different types of awards are as follows:
(i) Market value options, the vesting period for which is three years from the date of grant with an exercise period of seven years (i.e. a total life of ten years). Options will vest if cumulative PBT of £90m is achieved over the three financial years ending 2009, 2010 and 2011.
(ii) Market value options which vest after a three year period from the date of grant. 15% of the options will vest if the group achieves growth in pre-exceptional PBT equivalent to RPI over the performance period; 100% will vest if pre-exceptional PBT growth is equivalent to RPI + 8% is achieved.
(iii) Conditional Share Award - shares will vest at the end of a three year period commencing on the date of grant subject to continuing employment.
(iv) Market value options. The vesting conditions for these options are the same as for that year's COIP, which are shown above
(v) Performance share plan. Vesting conditions are as follows:
Date of award: 2015; 2016
Vesting based on growth in profits - from year ended December: 2014; 2015
for the three-year period ending with the year ended December: 2017; 2018
Award vests at 15% if profits over the vesting period grow by: 8%; 8%
Award vests at 100% if profits over the vesting period grow by: 20%; 20%

24 Other provisions

	Warranties £ 000	Properties £ 000	Total £ 000
