GROUP PEOPLE SERVICES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE 52 WEEKS ENDED 26 DECEMBER 2009

1. ACCOUNTING POLICIES

The accounting policies summarised below have all been applied consistently throughout the current period

BASIS OF PREPARATION

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards The financial statements have been prepared on a going concern basis as discussed in the Directors' Report

Under Financial Reporting Standard 1 (revised 1996), the Company is exempt from the requirement to prepare a cash flow statement on the grounds that it is a wholly owned subsidiary undertaking and a consolidated cash flow statement is given in the financial statements of Galiform Plc

The financial statements include the undertakings for the 52 week period ended 26 December 2009, being the Saturday nearest to the Company's accounting reference date of 31 December The comparative period covers the 52 weeks ended 27 December 2008

TURNOVER

Turnover represents the net value of services sold to customers excluding value added tax All turnover arises in the United Kingdom Turnover is recognised on the provision of qualifying services

TAXATION

UK Corporation tax is provided at amounts expected to be paid (or recovered) using tax rules and laws that have been enacted or substantively enacted by the balance sheet date

Deferred taxation is provided on a full provision basis, without discounting, on all timing differences which have arisen but not reversed at the balance sheet date

PENSIONS

i) Defined benefit pension schemes

The Company participates in its parent Company's (Galiform Plc) group retirement benefit scheme This is a defined benefit arrangement, operating through a multi-employer defined-benefit scheme The assets and liabilities of the scheme are held separately from those of the Galiform Group The Company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme as if it was a defined contribution scheme This is in line with the guidance in FRS 17 relating to group defined benefit pension schemes

ii) Defined contribution pension schemes

The Galiform Group operates a defined contribution scheme for its employees For defined contribution schemes, the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contributions payable in the year Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet

SHARE-BASED PAYMENTS

FRS 20 has been applied to all grants of equity instruments after 7 November 2002 that were unvested as of 25 December 2005

The Company issues equity-settled share-based payments to certain employees, based on the shares of its ultimate parent Company Galiform Plc Equity-settled share-based payments are measured at fair value at the date of grant The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest

Fair value is measured by use of either a binomial model or a Black-Scholes-based model, depending on which model most closely reflects the terms of each individual share-based payment arrangement The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations

10 ULTIMATE PARENT COMPANY AND RELATED PARTY TRANSACTIONS

The Company's parent Company is Galiform Holdings Ltd and the ultimate parent Company and controlling entity is Galiform Plc incorporated in Great Britain and registered in England and Wales

The largest and smallest group in which the results of the Company are consolidated is that headed by Galiform Plc The consolidated accounts of this group are available to the public and can be obtained from the Registrar of Companies, Companies Registration Office, Crown Way, Maindy, Cardiff CF14 3UZ

The Company is exempt under FRS 8 from the requirement to disclose transactions within the group headed by Galiform Plc, on the grounds that it is a wholly owned subsidiary

11. PENSIONS

i) Defined contribution pensions

The Galiform Group operates a defined contribution scheme for its employees The Company's pension charge for the current year for the defined contribution pension scheme was £0 6m *(2008 £0 5m)* There were no outstanding contributions at the period end

ii) Defined benefit pensions

The Company participates in the Galiform Plc Group retirement benefit plan This is a defined benefit multi-employer arrangement, which operates through a funded pension scheme which provides benefits based on the final pensionable pay of participating employees The assets of the scheme are held separately from those of the Group, being invested with independent fund managers The Company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme as if it was a defined contribution scheme This is the prescribed treatment in FRS 17 "Retirement Benefits"

Further information about the Galiform Plc defined-contribution retirement benefit schemes is available in the Galiform Plc statutory accounts The latest actuarial valuation of the Group defined contribution schemes was carried out at 6 April 2008 by the scheme actuary This was subsequently rolled forward to 26 December 2009 by the actuary advising the Group, and restated on a basis consistent with market conditions at that date This exercise showed a scheme deficit at 26 December 2009 of £196 3m *(2008 £122 2m)*, before netting off the associated deferred tax asset The roll-forward was done according to the requirements of International Accounting Standard 19 "Employee Benefits" ("IAS 19", under which the Galiform Group reports its results), rather than FRS 17 (under which this Company reports its results) However, management have no reason to believe that there would be any significant difference between a valuation under FRS17 and one under IAS 19 Further details are given in the consolidated financial statements of Galiform Plc

The Company's defined benefit pension charge for the year was £9 1m *(2008 £10 2m)* There were no outstanding contributions at the period end

The Group adopted IFRS with effect from 26 December 2004, and therefore the Group consolidated financial statements disclose pension charges, assets, and liabilities in line with IAS 19 *'Employee Benefits"* The Group does not believe that there are any material differences between the net pension deficit and the pension charge under IAS 19, compared to under FRS17 It may therefore be useful to users of these accounts to consult the full IAS 19 disclosures given in the consolidated financial statements of Galiform Plc

3) Fair value of options granted

The fair value of all options granted except Sharesave is estimated on the date of grant using binomial option valuation model Sharesave schemes are valued using Black Scholes model as they are not considered to be of such complexity that they require a binomial model The key assumptions used in the models were

	52 weeks to 26 December 2009	52 weeks to 27 December 2008
Dividend yield (%)	**0.0**	**0.71**
Expected share price volatility (%)	**50 0 to 52.0**	46 0
Historical volatility (%)	**50.0 to 52.0**	46 0
Risk-free interest rate (5)	**2.87 to 3.2**	4 5
Expected life of options (years)	**6.4 to 6.5**	2 6

Historical volatility is measured for each scheme over the period equal to the vesting period of the scheme The figure arrived at is then used as the best estimate of expected future volatility
