1. ACCOUNTING POLICIES

The accounting policies summarised below have all been applied consistently throughout the current and prior period

BASIS OF PREPARATION

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards The financial statements have been prepared on a going concern basis as discussed in the Directors' Report

Under Financial Reporting Standard 1, the Company is exempt from the requirement to prepare a cash flow statement on the grounds that it is a wholly owned subsidiary undertaking and a consolidated cash flow statement is given in the financial statements of Howden Joinery Group Plc

The financial statements include the undertakings for the 53 week period ended 29 December 2012, being the Saturday nearest to the Company's accounting reference date of 31 December The comparative period covers the 52 weeks ended 24 December 2011

TURNOVER

Turnover represents the net value of services sold to customers excluding value added tax All turnover arises in the United Kingdom Turnover is recognised on the provision of qualifying services

TAXATION

UK Corporation tax is provided at amounts expected to be paid (or recovered) using tax rules and laws that have been enacted or substantively enacted by the balance sheet date

Deferred taxation is provided on a full provision basis, without discounting, on all timing differences which have arisen but not reversed at the balance sheet date

PENSIONS

i) Defined benefit pension schemes

The Company participates in its parent company's (Howden Joinery Group Plc) group retirement benefit scheme This is a defined benefit arrangement, operating through a multi-employer defined-benefit scheme The assets and liabilities of the scheme are held separately from those of the Howden Joinery Group Plc group ("the Group") The Company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme as if it was a defined contribution scheme This is in line with the guidance in FRS 17 relating to group defined benefit pension schemes

ii) Defined contribution pension schemes

The Group operates a defined contribution scheme for its employees For defined contribution schemes, the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contributions payable in the year Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet

SHARE-BASED PAYMENTS

FRS 20 has been applied to all grants of equity instruments after 7 November 2002 that were unvested as of 25 December 2005

The Company issues equity-settled share-based payments to certain employees, based on the shares of its ultimate parent company Howden Joinery Group Plc Equity-settled share-based payments are measured at fair value at the date of grant The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest

Fair value is measured by use of either a binomial model or a Black-Scholes-based model, depending on which model most closely reflects the terms of each individual share-based payment arrangement The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations

2. PROFIT ON ORDINARY ACTIVITIES BEFORE TAXATION

12. ULTIMATE PARENT COMPANY AND RELATED PARTY TRANSACTIONS

The Company's parent Company is Howden Joinery Holdings Ltd and the ultimate parent Company and controlling entity is Howden Joinery Group Plc incorporated in Great Britain and registered in England and Wales

The largest and smallest group in which the results of the Company are consolidated is that headed by Howden Joinery Group Plc The consolidated accounts of this group are available to the public and can be obtained from the Registrar of Companies, Companies Registration Office, Crown Way, Maindy, Cardiff CF14 3UZ

The Company is exempt under FRS 8 from the requirement to disclose transactions within the group headed by Howden Joinery Group Plc, on the grounds that it is a wholly owned subsidiary

13. PENSIONS

i) Defined contribution pensions

The Howden Joinery Group Plc group ("the Group") operates a defined contribution scheme for its employees The Company's pension charge for the current year for the defined contribution pension scheme was £0 4m *(2011 £0 6m)* There were no outstanding contributions at the period end

ii) Defined benefit pensions

The Company participates in the Group retirement benefit plan This is a defined benefit multi-employer arrangement, which operates through a funded pension scheme which provides benefits based on the final pensionable pay of participating employees The assets and liabilities of the scheme are held separately from those of the Group, being invested with independent fund managers The Company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme as if it was a defined contribution scheme This is the prescribed treatment in FRS 17 "Retirement Benefits"

Further information about the Howden Joinery Group Plc defined-contribution retirement benefit scheme is available in the Howden Joinery Group Plc consolidated Annual Report and Accounts The recent most completed actuarial valuation was carried out at 5 April 2011 by the scheme actuary The actuary advising the Group has subsequently rolled forward the results of the 5 April 2011 valuation to 29 December 2012, and has restated the results onto a basis consistent with market conditions at that date This exercise showed a scheme deficit at 29 December 2012 of £154 5m *(2011 £136 9m)*, before netting off the associated deferred tax asset The roll-forward was done according to the requirements of International Accounting Standard 19 "Employee Benefits" ("IAS 19", under which the Howden Joinery Group reports its results), rather than FRS 17 (under which this Company reports its results) However, management have no reason to believe that there would be any significant difference between a valuation under FRS17 and one under IAS 19

The Company's defined benefit pension charge for the year was £18 5m *(2011 £14 8m)* There were no outstanding contributions at the period end

The Group adopted IFRS with effect from 26 December 2004, and therefore the Group consolidated financial statements disclose pension charges, assets, and liabilities in line with IAS 19 *"Employee Benefits"* The Group does not believe that there are any material differences between the net pension deficit and the pension charge under IAS 19, compared to under FRS17 It may therefore be useful to users of these accounts to consult the full IAS 19 disclosures given in the consolidated financial statements of Howden Joinery Group Plc

3) Fair value of options granted

The fair value of all options granted except Sharesave is estimated on the date of grant using binomial option valuation model Sharesave schemes are valued using Black Scholes model as they are not considered to be of such complexity that they require a binomial model The key assumptions used in the models were

	53 weeks to 29 December 2012	52 weeks to 24 December 2011
Dividend yield (%)	**1.5**	1 5
Expected share price volatility (%)	**54**	54
Historical volatility (%)	**54**	54
Risk-free interest rate (5)	**1.6**	3 0
Expected life of options (years)	**3 0 to 6.5**	3 0 to 6 5

Historical volatility is measured for each scheme over the period equal to the vesting period of the scheme The figure arrived at is then used as the best estimate of expected future volatility
